

Transform your supply chain into a competitive asset

Stop disruptions before they start. With Infor™ Nexus, deliver products on time and in full, free up working capital, improve supplier performance, and reach your sustainability goals.

Infor Nexus delivers value through

End-to-end visibility

- Gain agility with real-time visibility of orders, shipments, and inventory
- Predictive insights to sense and respond to disruptions and opportunities
- Multi-party collaboration and execution

Multi-tier traceability

- Visibly map your suppliers from tier one and beyond
- Track and trace your products' journey from source to support regulations and product claims
- Manage certificates, multi-tier data, and documents needed for traceability

Procure-to-Pay (P2P)

- Enable touchless invoice processing and manage global payments
- Gain earlier cashflow visibility for you and your suppliers

Supply chain finance

- Free up working capital and ensure a healthy supply chain through supply chain finance
- Increase adoption and coverage through a global network of banks

Supplier collaboration and engagement

- Collaborate on orders and work-in-progress items to ensure supply chain agility
- Automated packaging and shipping improve accuracy while enabling cross-dock and direct-ship strategies
- Enhance environmental, social, and governance (ESG) and compliance management

Global logistic management

- Cut costs and carbon emissions by optimizing routes, modes, carriers, and container utilization
- Seamlessly collaborate and execute transportation requests for improved capacity and service quality
- Gain more reliable estimated arrival times with machine learning (ML) on network data

Smart supply chains

- Get visible warnings on order and shipment delays and stock deficiencies with ML
- Gain immediate insights into customer impact and value at risk of disruptions
- Smart import uploads key data to improve accuracy, efficiency, and user adoption
- Embedded process monitoring provides early issue detection for better optimization
- Boost user productivity with Infor Nexus Digital Assistant, freeing teams to focus on higher-value work and accelerating supply chain decisions
- Automatically review your most critical business processes with role-based artificial intelligence (AI) agents for fast, actionable insights

A global network

- Leverage one of the largest supply chain networks with over 94,000 members
- Accelerate supplier onboarding and adoption through Infor Nexus global services

All this and more

\$90 billion
