

Infor Value Engagement

Unlock business outcomes with expert-led workshops and a tailored roadmap for optimization, innovation, and growth

Remove roadblocks and unlock business potential

Many organizations face barriers that hinder short-term efficiency and disrupt long-term progress—from process bottlenecks and disconnected systems, to gaps in user adoption and data accessibility.

Infor™ Value Engagement consists of an expert-led structured workshop designed to help you get more out of your current CloudSuite™ investment. It is built to uncover and prioritize the most impactful opportunities for optimization and innovation—based on your specific goals, systems, and business context. This could range from automating your Accounts Payable process, to deploying an artificial intelligence (AI)-driven forecasting model, or optimizing production planning with real-time data and advanced scheduling tools.

Nearly 80% of companies now place innovation among their top three priorities and 66% plan to increase spending.¹

Turn insight into action across your business
