Confluence HEALTH

AI-driven inventory intelligence automates reorder points and prevents shortages

Calculate reorder thresholds per location in **minutes instead of hours**

Ensure optimal stock levels with **predictive inventory thresholds** and flexible reordering options per location

Infor's clinical interface engine seamlessly integrates your enterprise resource planning (ERP) and electronic health record (EHR):

Eliminate the need to rebuild interfaces: Integrate requisition and financial data into your ERP, ensuring smooth compatibility

Achieve precise, on-time payments with centralized, intelligent invoice processing

> " Partnering with Infor has helped us take advantage of technology and automation to be more efficient and save time so we can reduce the demand for resources as we grow. For example, we just implemented Infor AI, which allows any staff member to get fast answers to inquiries on supplies through a simple voice command or text chat. Time is no longer wasted on searching for supplies or checking status, giving back valuable time to deliver better patient care. "
