

Beyond the bedside: the reality of a nurse

Infor® conducted a national survey* to explore the top challenges nurses face as employees and in supervisor roles. Discover the insights Infor uncovered and see how the company can help address these issues.

Is my paycheck accurate based on the work I performed?

Payroll is the largest budget category in Healthcare

According to credit rating agency Fitch Ratings, labor expenses (salaries and benefits) are the largest expense category for hospitals, making up more than 50% of a hospital's total expenses.

How Infor solutions help healthcare organizations provide better care

Infor eases the administrative load for nurses and managers, allowing them to prioritize employees and patients. Supervisors can optimize their time for routine tasks, while actionable insights aid in areas like career planning, onboarding, and staff development.

- Proactively identify internal candidates with behavioral profiling by nurse modality
- Provide staff with a clear career path tailored to their goals/behaviors
- Tools for managers who are focused on supporting patient care as well as employees who want to be unburdened
- Manager and employee self service
- Automated schedule compliance so managers can manage by exception
- Real-time visibility to turnover analytics including tracking preceptor/preceptee
- Ability to assign courses and see progress, as well as giving employees access to take courses that interest them or will improve their knowledge and areas of expertise
- Preceptor checklist
