

# Supercharge your Finance team with AI-powered Infor Value+ solutions

## Manual tasks are time-consuming and detract Accounts Payable from higher value work

It's challenging for Accounts Payable to focus on managing cash flow when so much time is spent processing invoices manually.

Artificial intelligence (AI) and robotic process automation (RPA) within **Invoice Processing** eliminates manual steps from making payments.

- Automates the process of capturing physical invoices, extracting the right information, matching it to a purchase order (PO), storing the invoice, and updating your Infor enterprise resource planning (ERP)
- Allows the AP team to work on higher value activities

## Accounts Receivable needs the right information at their fingertips to ensure payments are collected

It's challenging for Accounts Receivable to efficiently manage customer payments and risk when information is spread across multiple screens.

See what's important and take action from one centralized place with **AR Credit Manager Advanced Workspace**.

- Pull together all the critical functions of an AR Credit Manager's day-to-day role
- Instantly know which customers are a high risk with the help of AI
- See which orders are on hold
- View all checks ready to process and apply cash payment as needed
