

Exceptional operational outcomes

“If you can look at all the patient data and find the one unique piece of data, it can change the treatment plan.

Get the right information to the right provider at the right time. Cloverleaf® enables data sharing.”

Shafiq Rab M.D.
Regional Senior VP and Co-Chief Information Officer
Hackensack University Medical Center

Challenge

- Creating common HL® FHIR® service layer
- Adopting mobile applications
- Efficiently exchanging health data across disparate systems

Infor solution

- Enabling real-world FHIR implementation
- Seamless integration into existing architecture
- Configuring FHIR pilots

Outcome

- Enabled real-world FHIR implementation, supporting patient, encounter, and resources data
- Seamless integration into customer's existing architecture
- Configured FHIR pilots and proof of concepts

Saved > 65,000 hours annually in manual data entry

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
