Automate processes with Infor Value+ solutions for food and beverage

Built with deep food and beverage expertise, solutions in the Infor Value+ catalog are prebuilt and implemented by Infor experts on your behalf. Select any of the highlighted solutions below or from an ever-growing complete catalog.

Infor Value+ solutions for food and beverage		
<p>Vendor Performance Insights</p> <p>Uses AI to help procurement managers evaluate and compare vendors and suppliers, even at the transaction level, so they can be prepared to address issues, ask for discounts, and negotiate contracts.</p>	<p>Cross Sell Recommender</p> <p>Within the Infor CloudSuite in-context widget, this Value+ solution recommends products to cross-sell based on what similar customers have purchased in past. This provides cross-sell opportunities with customer group-based suggestions, making a more tailored recommendation.</p>	<p>Customer Ordering & Profitability Insights</p> <p>Uses AI to uncover patterns about customers' ordering behaviors, catches ordering anomalies, and identifies which customers are having a positive or negative impact on profit. Catch customer ordering anomalies right away so you can take action.</p>
<p>Invoice Processing</p> <p>Uses AI and RPA to automatically process physical invoices after they are scanned, eliminating manual work for Accounts Payable. This includes extracting the right information from the paper invoice, matching it to a PO, storing the digital invoice, and updating the Infor ERP accordingly.</p>	<p>Proof of Delivery and/or Bill of Lading Digitization</p> <p>Uses RPA to automate the process of scanning paper documents, uploading them, extracting relevant information, and storing them. This automation eliminates manual work and makes it much easier to find documentation.</p>	<p>Bank Statement Scanning</p> <p>Uses RPA to scan digital bank statements, extract transaction data, and match it with internal records. Any discrepancies between the bank statement and internal ledger are flagged for review by the treasury team.</p>

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
