

Measure your success

Infor customers, partners, and employees are all eligible for certifications. Certification exams for each product line are role-based, including functional exams for consultant services, and technical exams for administration, installation, security authorization, and integration.

Get Ready

Certification tracks include training courses that cover exam topics. These courses and tracks have been designed to help you prepare, but are not prerequisites for taking an exam.

Get Help

As a complement to relevant training courses, our exam guides can help candidates self-assess their knowledge against the detailed exam objectives. Studying these guides is an effective way for you to improve your readiness for passing a certification exam.

Get Started

Infor uses an online testing platform, WebAssessor, to make Infor certification exams accessible from anywhere, at anytime. WebAssessor offers candidates a convenient way to take exams in a secure, proctored environment.

More confident, knowledgeable, and reliable employees

IT decision-makers perceive certification as a way to strengthen staff's skill and knowledge and increase productivity within the IT organization. Certified employees reach job proficiency more quickly and perform at a higher level than non-IT-certified individuals in similar job roles. Research also shows that a team's effectiveness is correlated to the percentage of applicable IT certifications held.

Confidence & Knowledge

89%

of employers think IT-certified individuals tend to perform better than non-IT-certified individuals in similar job roles.²

Certified IT professionals have greater confidence in their ability to implement IT systems on budget and on time.¹

81% of IT professionals

say that maintaining their IT certification keeps their skills and knowledge current.¹

Effectiveness & cost savings
