

Empowering Infor's industry-first approach with AWS generative AI

Leverage AI-powered capabilities to transform customer experiences, boost productivity, and streamline business processes across industries

In collaboration with Amazon Web Services® (AWS®), Infor® is leading the way in embedding generative artificial intelligence (AI) into enterprise solutions. By integrating AWS's generative AI services, Infor's CloudSuite™ applications are empowering businesses to enhance customer experiences, optimize workflows, and drive innovation. The Infor GenAI Platform, built on Amazon Bedrock, offers industry-specific AI solutions to meet the unique needs of customers in a scalable and secure manner.

Enhance customer experiences

Leverage AI to provide personalized, contextual responses and automate content generation

Boost productivity

Infor GenAI helps employees work more efficiently by orchestrating multi-system tasks and summarizing critical data

Optimize processes

Automate and streamline complex business workflows to reduce operational costs and improve decision-making

Infor's generative AI capabilities deliver:

- AI-powered content creation, including text summarization, translation, and contextualization
- Conversational AI interfaces for seamless navigation across enterprise applications
- Knowledge hubs that unlock data from diverse sources using retrieval-augmented generation (RAG) models

Why choose Infor enterprise solutions

Infor GenAI Platform empowers businesses to overcome industry-specific challenges. By leveraging AWS's robust infrastructure, Infor solutions enhance scalability, security, and productivity across enterprise operations.

Industry-specific AI

Tailored AI capabilities designed to address unique challenges in various industries

Seamless scalability

Built on AWS infrastructure, allowing businesses to easily scale their AI-powered solutions

Secure by design

Infor's secure, multi-tenant architecture ensures data privacy and prevents data leakage across tenants

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
