EXECUTIVE BRIEF

The path to Infor CloudSuite Industrial from Infor VISUAL

Modernize how you run, without disrupting it

Infor™ VISUAL has powered manufacturing businesses for years. But as work spreads into spreadsheets, side databases, and disconnected tools, teams spend more time maintaining servers, backups, and upgrades, and less time focused on driving the business forward. Infor CloudSuite™ Industrial (CSI) keeps the manufacturing depth you rely on while delivering a modern cloud platform, continuous updates, connected data, and a foundation for Infor Industry AI™ that helps manufacturers work smarter, respond faster, and scale for growth.

Why leading manufacturers are moving forward

37%
Lower integration costs for organizations consolidating on Infor
Nucleus Research, Dec 2025

Up to 30%
Faster AI deployment on Infor's shared data foundation
Nucleus Research, Dec 2025

10–20 pts
Better AI model accuracy vs. fragmented, multi-vendor data
Nucleus Research, Dec 2025

+50%
Foundational ERP tasks will be autonomously executed by AI by 2030
Gartner, 2026

Nucleus Research findings reflect organizations consolidating on Infor and are not guaranteed Infor VISUAL-to-Infor CloudSuite Industrial outcomes. Gartner data reflects market direction. Results depend on scope, data readiness, and adoption.

Customer proof

The value of modernization

Manufacturers are reducing complexity, improving cash flow, and lowering operating costs with Infor CloudSuite Industrial.

Hines

35%
Fewer customizations
Reduced complexity after moving from customized on-premises systems to Infor CloudSuite Industrial.

OLIVER
Helping People Feed People

$400K
Inventory savings
Also reduced inventory 20% and freight costs 5% after replacing a legacy ERP.

xpress boats
we build xcitement

75%
Lower expedited shipping costs
Improved inventory and vendor management with Infor CloudSuite Industrial, CPQ, and Factory Track.

What you get

A modernization case every leader can back

Moving from Infor VISUAL to Infor CloudSuite Industrial is a decision about where your next dollar investment goes: Keeping an on-premises system running or building on a platform that keeps getting better.

Competitive edge
Grow without a disruptive reset

Support ETO, MTO, and project-based work in the cloud while spending less time maintaining legacy systems and more time on customers, growth, and new capabilities.

Financial control
Predictable cost, protected margin

Replace server refreshes, upgrade projects, and disaster recovery costs. See cost, margin, and job performance sooner with operations and finance on the same data.

Secure modernization
Retire technical debt, stay current

Security, backups, high availability, and disaster recovery come with the service. Extend and personalize without changing core code.

Operational visibility
One view from order through service

Connect estimating, service, documents, and workflows. Spot late jobs, shortages, and exceptions sooner with fewer manual handoffs.

Built for the future of manufacturing

A platform that puts AI to work on your shop floor data

Infor CloudSuite Industrial is built on the Infor Industry Cloud Platform and powered by Infor Velocity Suite. It's designed as the foundation for an agentic enterprise, where artificial intelligence (AI) agents help people plan, buy, build, and ship with fewer surprises.

Infor Industry Cloud Platform

Comes with every Infor CloudSuite, connecting data, workflows, documents, integrations, and security in one governed environment. This gives teams consistent, connected information and provides a strong data foundation for AI.

Infor Velocity Suite

How Infor helps deliver the agentic enterprise. Industry AI agents, process mining, and automation help teams find bottlenecks, take on repetitive work, and act on exceptions faster, using prebuilt use cases instead of long custom projects.

The journey

A proven, low-risk path: Five steps to success

Moving from Infor VISUAL to Infor CloudSuite Industrial follows a structured process. Infor and its partners help assess the current environment, migrate data, modernize customizations, coordinate go-live, and support ongoing adoption.

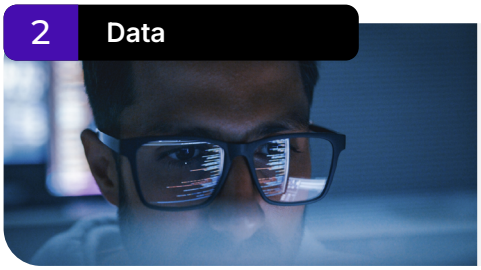

1 Assessment

Where are the gaps today?

How you're supported
Review current processes, systems, and priorities to build a practical modernization roadmap.

2 Data

What happens to my data?

How you're supported
Map, validate, and move master and historical data with less risk.

3 Customizations

What should carry forward?

How you're supported
Evaluate modifications and use extension tools where they add value without changing core code.

4 Go-live

How is risk managed?

How you're supported
Coordinate integrations, testing, change management, cutover, and support.

5 Success

What happens after go-live?

How you're supported
Use customer success, partner expertise, regular updates, and adoption planning to keep improving.

Why make the move

Innovation that moves the business forward

Infor CloudSuite Industrial brings data, workflows, documents, and applications together in one connected environment. Teams work from the same information, spot problems sooner, and make decisions with more confidence, on a platform designed to keep getting better, not harder to maintain.

Cloud operations
Security, backups, high availability, and disaster recovery run as part of the service.

Connected platform
Bring data, workflows, documents, and integrations into one governed environment.

Service management
Extend operational scope from order through field service.

Industry AI and agents
Add AI agents, process mining, and automation grounded in manufacturing data.

Extensible by design
Personalize and extend without touching core code.

Always current
Use regular cloud updates instead of disruptive version upgrades.

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
