# How to quickly automate more of your healthcare organization

Innovate processes fast with Infor Value+ solutions

Healthcare organizations face numerous challenges including workforce shortages and rising costs. Adopting new technology can help, but it's often difficult to determine what to automate, the results it will deliver, and how long it will take. Infor Velocity Suite package is purpose-built for healthcare and includes the Infor Value+ catalog of solutions to automate more of your finance and procurement functions. Each solution in the Infor Value+ catalog is built for your industry using the most advanced technology and can take as little as 30 days to start seeing value.

Why healthcare industry leaders use Infor Velocity Suite

Infor Velocity Suite is a package of solutions and services that makes process innovation easy and impactful for healthcare.

Get future-ready

Access Infor's most advanced technology to stay agile, adaptable, and ahead of the competition.

You can choose from Infor's catalog of Infor Value+ process automations using RPA, plus get usage of Infor GenAI and Infor Process Mining.

Simplify process innovation

Easily buy, implement and use technology to improve processes continuously.

Automate processes in healthcare with Infor Value+ solutions

Built with deep healthcare expertise for finance and procurement, solutions in the Infor Value+ catalog are prebuilt and implemented by Infor experts on your behalf. Select any of the highlighted solutions below or from an ever-growing complete catalog.

Infor Value+ solutions for healthcare		
Invoice Processing Automate the retrieval and registration of accounts payable invoices for medical supplies and pharmaceuticals.	**GHX Invoice Upload** Streamline reconciliation by automating GHX PDF files, automatically uploaded to Infor Document Management with invoice attributes.	**AR Check Processing** Automate the retrieval and registration of scanned checks related to patient payments, insurance reimbursements, or grant funding, posted to Infor FSM receivables.
Buyer Advanced Workspace Pull together all the critical functions of a Buyer's day-to-day role with the help of AI, such as mismatched invoices, missing PO information, acknowledgement deviations, and past due orders.	**Requisition Anomalies** Allow this solution to automatically analyze historical requisition data to identify anomalies (e.g., price, quantity) and notify requesters and approvers of any deviations, enabling proactive decision-making to maintain supply chain efficiency.	**Vendor Performance Insights** Improve patient care reliability by seeing relative vendor grading based on promptness of delivery, quantity of delivery, and quality of products delivered.

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
