↑ 70%

… and supported the realization of qualitative benefits

Reduction in downtime — Interviewees reported that Infor promises uptime of 99.7% under standard SLA, allowing organizations to avoid productivity losses from on-prem outages.

Increased visibility and data control — Having one version of the truth for reporting and decision-making replaces outdated manual processes and inconsistent data sources.

Improved security — With Infor CloudSuite, the organization upgrades from risky and unsupported systems to a modern cloud environment with built-in compliance and traceability features.

Empowered proactive, strategic work — By automating routine processes and improving data visibility, Infor CloudSuite enables organizations to shift focus from day-to-day operational firefighting to more strategic priorities.

Services-enabled benefits

A partner in long-term success

Early hands-on engagement

Accelerated time to value

"Infor helped us work smarter and scale with confidence. We weren't just handed a tool; we had a true partner invested in our long-term success."

GLOBAL DIGITAL MANAGER, MANUFACTURING

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
