

# Exceptional clinical and operational outcomes

“We had to integrate a lot of systems in a very short span of time to deliver the vaccines, and it was a huge success. We owed a lot of that to the Cloverleaf engine being versatile, being robust, and being customizable.”

**Tony Hong**  
Application Development & Integration,  
Keck Medicine of USC

### Challenge

- Integrate critical healthcare systems
- Rapid creation of appointment scheduling and inventory tracking systems.
- Avoid vaccine wastage and maintain compliance with Federal Government mandates

### Infor solution

- Scalable data integration in limited time frame
- Complex scheduling challenges managed across multiple sites
- Robust patient database to track 1st and 2nd doses

### Outcome

- Customized API Bundles for Different Vendors
- Seamless Data Flow from Cerner to Salesforce with FHIR Bridge and API Gateway
- Infor FHIR Server Acts as a Clinical Data Access Point

**83,500** vaccine doses delivered in just **4 months**

## About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
