

The interoperability imperative: Driving value-based care forward

As the healthcare industry pivots toward value-based care (VBC), it is critically important for organizations to master interoperability. However, many healthcare entities still find themselves at the beginning stages of implementing more advanced interoperability initiatives.

Improving interoperability is essential

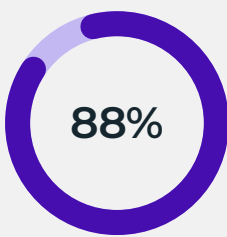

Too many healthcare organizations are not yet advanced in their adoption of interoperability. Adoption rates are:

94% of organizations say that gaps in interoperability often **impact/slow down their ability to make patient care decisions** as quickly as they'd like

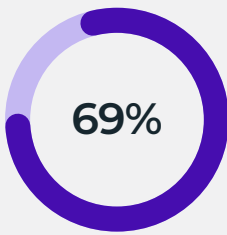

The influence of revenue models on interoperability success

Organizations with a hybrid approach to their revenue model are more focused on interoperability, giving them more desirable results.

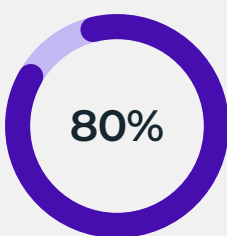

of the hybrid group says that improving interoperability is a high or critical priority

VS.

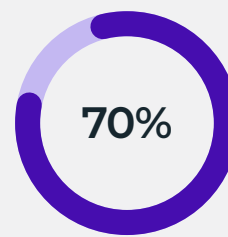

of FFS organizations

and

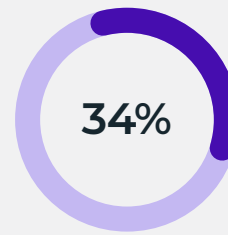

of VBC organizations

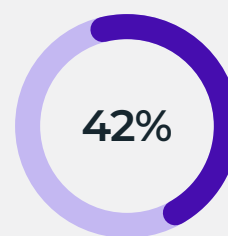

of the hybrid group have a well or fully adopted interoperability strategy

VS.
