Unleash hyper productivity with Infor GenAl

Enterprise generative AI built to reimagine efficiency, turn data into unlimited potential, and elevate Infor CloudSuite

Designed for the unique needs of your industry, Infor GenAI built directly in Infor CloudSuite is your catalyst for modern enterprise innovation and intelligence with generative AI.

Reimagine efficiency at scale

Eliminate tedious tasks, giving your teams a seamless user experience through smart widgets and natural conversation.

Turn your data into unlimited potential

Grounded in all your industry data, powered by market-leading LLMs, turn scattered data into new innovations and insights.

Elevate the spaces you're familiar with

With generative AI built directly in Infor CloudSuite, have the peace of mind of enterprise security and data privacy tailored to every user.

Get answers instantly across your industry data with Infor GenAI Assistant

Infor GenAl Assistant turns any conversation into the business clarity you need to manage, track, and analyze performance across your products, projects, and people.

Streamline all your data, ask in one place

Explore all your data in one place, connecting your Infor CloudSuite and documentation together for a complete view of your business to inform decisions quickly.

Engage in context-driven answers and actions

Have deep, contextual conversations as you refine, clarify, and pivot — ensuring precise, actionable responses with automated tasks handled for you.

Find your focus with GenAI in a trusted flow of work

Reduce distractions with a trusted guide directly in Infor CloudSuite so you can have AI-driven productivity with the robust security and data privacy that you're used to.

Write, summarize, and analyze at scale with Infor GenAI Embedded Experiences

Infor GenAl Embedded Experiences are built directly in your workflows to elevate day-to-day tasks with AI-driven productivity across procurement, project management, operations, financials, sales and HR with generative AI.
