

Infor Value+ solutions use AI and RPA to solve challenges in managing suppliers

Challenge #1: Vetting

Your suppliers must be checked against governmental checklists (e.g., OIG) on a recurring basis to ensure you are allowed to do business with them.

“Set it and forget it” using AI and RPA advanced technology inside **Infor’s Vendor Compliance Checks** automation solution.

- Replace tedious manual tasks with automation
- Prevent the risk of non-compliance
- View and monitor checks as you like

Challenge #2: Activating

Your new suppliers must be activated in your Infor ERP—without long delays—while making sure all the necessary information and approvals are correct.

Streamline activities to create a supplier account with **Infor’s Supplier Account Creation** solution.

- Monitor progress in real-time and prevent missteps
- Pull everything together in one place to stay on top of “who does what and when”

Challenge #3: Overseeing

Staying on top of daily orders, receipts deliveries, invoices, and acknowledgments is critical because they impact your key stakeholders and teams throughout your business.

Use **Buyer Advanced Workspace**, supercharged with AI and RPA, to stay on top of tasks.

- Quickly catch and address issues such as mismatched invoices, missing PO information, acknowledgement deviations, and past due orders
- Take action with just one click

Challenge #4: Evaluating

You need reliable, ready-made performance insights about each of your suppliers to address issues, ask for discounts, and negotiate contracts.

Arm yourself with AI-generated **Vendor Performance Insights** to properly evaluate suppliers and vendors.

- Eliminate manually digging through data by leveraging the power of AI
- View performance at the vendor and transaction level, and compare who’s performing well and who’s not
