Reimagine what's possible with Infor Industry Cloud Platform

One connected platform for innovation and AI-driven intelligence

Infor™ Industry Cloud Platform is the technology backbone of Infor CloudSuites, bringing together industry AI, data & insights, integration, application development, and Value+ solutions in one connected, composable cloud platform. Built with unmatched security and reliability, it enables you to operate with confidence and innovate as your business evolves.

The platform behind Infor CloudSuites

This unified platform, built into every Infor CloudSuite™, enables you to get ahead with the agility, AI-driven intelligence, and innovation needed to drive lasting value across every level of your organization.

Lead through disruptions
Stay agile in times of uncertainty by innovating fast and adapting with a platform built for change.

Scale seamlessly as your business evolves
Adapt fast by building with low-code flexibility, backed by trusted Amazon Web Services (AWS) performance and security.
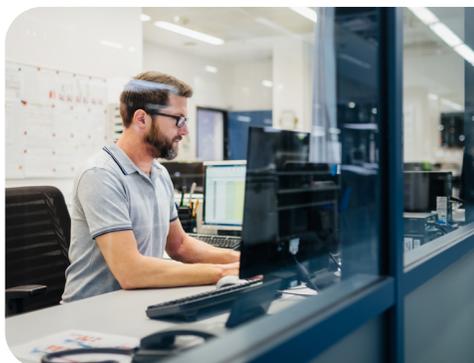

Set new standards for intelligence and productivity
Make bold, confident decisions and unlock productivity with artificial intelligence (AI) embedded into every workflow.

Drive resilience with experts by your side
Modernize with deep industry expertise, best practices, and the latest technologies that are pre-configured.

"Infor's cloud technology platform has been vital as we move to 100% cloud. It's a powerful solution because each time we use it to extend or customize our system, we can add value and differentiate our business."

Realize value from day one and beyond

Start realizing value on day one with foundational capabilities included in Infor CloudSuite through Infor OS, then expand as you grow over time across five solution areas that are composable by design.

Solution areas

Industry AI

Unleash the full potential of your data with prescriptive, predictive, and generative AI powered by industry AI agents embedded into your workflow.

Data & insights

Gain actionable insights to drive strategic decisions with AI-powered analytics, process mining, a robust data fabric, and enterprise performance management.

Value+ solutions

Accelerate innovation with a catalog of pre-built Infor solution add-ons for enterprise automations, insights, and advanced workspaces.

Application development

Rapidly design, build, extend, and deploy enterprise apps—easily and at scale—using intuitive no-code and low-code development tools.

Integration

Unify your systems for smoother, more efficient operations, accurate data, and better response times with advanced validation, monitoring, and versioning.

Included in Infor CloudSuite

Infor OS: Establish a secure, scalable foundation with built-in services for security, application programming interface (API) access, scripting, data handling, and document management.

Why leading organizations choose Infor's platform approach

83%
Improvement in productivity with AI-driven customer profitability grading

Groupe Grosfillex

7,500
Hours saved annually in part matching

ENDRIES INTERNATIONAL INC.

98%
Faster identification of process issues
