

Infor Velocity Suite: The simplest path to achieve value with AI

Infor Velocity Suite is an all-inclusive package of AI solutions, tools, and expertise you need to operate at your best. It includes a catalog of Infor Value+ automations – prebuilt using AI – as well as Infor Process Mining, Infor GenAI, and Infor Industry AI Agents. Our Infor experts provide guidance and implement it all for you.

AI that creates business value

Research firms forecast somewhere between 35% to 50% productivity improvement from the use of AI. But the reality is most organizations struggle to see any of those gains.

Infor Velocity Suite is the simplest path to achieve value with AI. It's an all-inclusive package of AI solutions, tools, and expertise you need to operate at your best.

Process optimization, made simple

Tailored to the right roles in your organization, each solution sits on a unified foundation, giving your AI the full picture. And with predictable flat-fee pricing from a single trusted vendor—Infor—it's all hassle free.

Guided path to proven value

See real results through a proven three-step approach: diagnose, automate, optimize. Everything is delivered by Infor experts who guide you every step of the way. No need to invest in additional tools, talent, or coordination.

Continuous AI innovations built for your industry

Access all our AI innovations, developed with precision for your industry and CloudSuite, like Infor Industry AI Agents. Infor is constantly innovating alongside our customers with the power of AWS, ensuring you'll never fall behind.

Infor Velocity Suite package includes technology so you can operate at your best

Infor Value+ catalog of automations

Choose from a catalog of AI-powered automations. They're all designed to optimize a process in your organization and specific industry. Each one is ready to add onto your Infor CloudSuite ERP by a team of dedicated Infor experts.

Infor Process Mining

Uncover patterns, trends, and anomalies in your processes using Infor Process Mining. By using process analytics and mining algorithms, it uncovers actionable insights, so Infor CloudSuite ERP customers know where and how to operate better.

RPA

Get unlimited usage of RPA, an underlying technology in most Infor Value+ solutions. RPA uses bots to perform a sequence of activities or other system activities designed to remove manual work and streamline processes.

Infor GenAI

Get unlimited usage of Infor GenAI embedded within Infor Value+ solutions. With a single click, you can write, summarize, analyze, and translate instantly—right within your workflow.

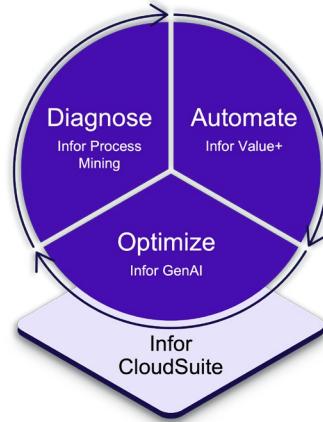

Infor Industry AI Agents

Infor Industry AI Agents are the only role-based AI agents built on micro-vertical processes by industry. They orchestrate and automate workflows across core operational areas to help your teams move faster, reduce errors, and amplify their expertise.

Infor Velocity Suite gets you on the path of continuous process optimization

The Infor Velocity Suite package pulls together advanced technologies from our industry cloud platform to make process innovation easy. First, Infor Process Mining identifies inefficiencies in your existing processes. You then select the Infor Value+ automation solutions that Infor experts will implement for you. Finally, Infor GenAI optimizes your processes for maximum productivity.
