

Future-proof your business with Infor ERP solutions, embedded with Infor GenAI

Modern, cloud enterprise resource planning (ERP) solutions—built for your industry, embedded with generative AI

From growing AI imperatives to a global economy that is changing overnight, the world around us moves very fast. All industries need to keep pace—but not all industries' needs are the same.

Designed for businesses of all sizes, Infor provides complete industry-specific capabilities to empower your workforce, automate complex processes, and increase collaboration with Infor CloudSuites—modern, cloud ERP solutions, at the core of your business.

Infor CloudSuite, embedded with Infor GenAI is your catalyst for modern enterprise innovation.

Embedded in Infor CloudSuites, Infor GenAI unleashes hyper-productivity with the power of generative AI directly into your workflow so your team can focus on higher value, mission-critical activities—giving your business a competitive edge.

Infor CloudSuite—ERP simplified and preconfigured for your industry

Complete industry-specific solutions

Purpose-built solutions designed by industry experts across 2,000+ micro-verticals with modern, cloud ERP at the core, built for your competitive advantage.

Future-proof innovations and intelligence

Powered by Infor OS Platform, innovate and outpace your competition with generative AI and other advanced technologies for you to drive the business forward.

Experience-oriented, hyper-productive workflows

Preconfigured industry processes and best practice workflows, down to the user, for the highest productivity to enable faster adoption across your team.

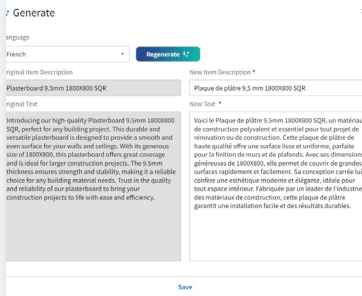

Unleash hyper-productivity with Infor GenAI

Infor GenAI is embedded throughout Infor CloudSuites so your team can manage day-to-day activities at the highest level of productivity. Examples of how Infor GenAI can optimize your work:

- Generate product descriptions at scale
- Analyze budget overruns on a project
- Ask questions about your enterprise data
- Optimize employee shift schedules
- Summarize projects into executive reports
- Translate descriptions into any language

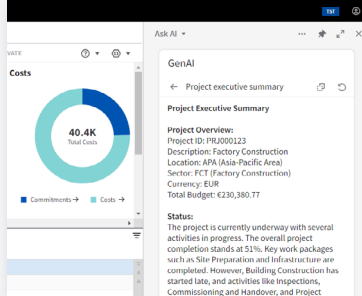

Reimagine efficiency with Infor GenAI for every user, in any industry

Elevate day-to-day business activities across procurement, project management, operations, financials, and sales with generative AI. By leveraging Amazon Web Services® (AWS®)'s scalable cloud infrastructure, businesses can deploy and scale Infor GenAI to meet their evolving business needs. Tailored to every user, explore how best-practice workflows in Infor CloudSuites are embedded with generative AI across 2,000+ micro-verticals.

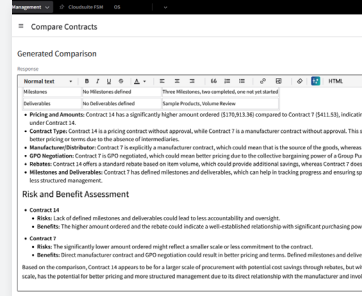

Generate content for inventory managers

Generate item descriptions with a single click, translated into any language to scale operational efficiency.

Evaluate projects for project leaders

Get instant answers to project performance and budget overruns for the best course of action.

Analyze insights for contract managers

Compare vendor contracts to see a detailed assessment of risks, benefits, and key differences.

Powered by Infor OS Platform, enabled by Amazon Web Services

Infor CloudSuites embedded with Infor GenAI are built on Infor OS Platform with infrastructure services from Amazon Web Services® (AWS®) to ensure trusted scalability, performance, security, and compliance.

As a proven foundation for innovation and intelligence, Infor OS Platform helps you realize business outcomes faster.

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
