Design, build, and grow with Infor Application Development

Building solutions tailored to your needs is essential for business growth and expansion. Both development teams and end users benefit from flexible tools that scale with the company. Development teams need easy-to-use, low-code tools to innovate quickly, while end users gain from secure, personalized solutions that enhance decision-making.

Infor® Application Development offers tailored, flexible solutions that empower you to design, build, and grow your business to meet its unique needs.

Build quickly

Accelerate time-to-market with agile development processes

✓ Rapid development

✓ Low code/No code

✓ Process automation

✓ Configuration management

Build for you

Create customized apps and dashboards that meet your unique requirements

✓ Customizable templates

✓ Intuitive user experience

✓ Multi-device ready

✓ Enhanced insights

Continue building

Have the flexibility to extend and scale as the needs of your business grow

✓ Scalable architecture

✓ Fluid integration

✓ Connected data

✓ Built-in security

Infor Application Development offers a portfolio of solutions designed to meet your development needs as a part of Infor OS. Infor Application Development comprises:

Infor Mongoose

Build and deploy customized apps leveraging a flexible development environment tailored to your unique requirements and skillset
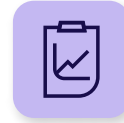

Infor OS App Designer

Streamline widget creation with a no-code interface and ready-to-use templates that effortlessly integrate with data services

Infor Robotic Process Automation (RPA)

Leverage bots to automate labor-intensive, rule-based processes 24/7, accelerating tasks across websites, emails, and documents

Infor Document Processor (IDP)

Harness advanced machine learning techniques to extract text and analyze data from images and documents

Infor

Explore how Infor OS Platform streamlines modern enterprise innovation by unifying Industry AI, Integration, Application Development, Data & Insights, and Value+ solutions. Automate, analyze, integrate, and enhance your Infor CloudSuite ecosystem with a single connected platform for innovation and AI-driven intelligence.

Infor OS

Industry AI	Integration	App Development	Data & Insights	Value+
Boost productivity and efficiency by integrating prescriptive, predictive, and generative artificial intelligence (AI) into workflows	Break down silos and seamlessly integrate Infor and third-party systems for enhanced business visibility and agility	Simplify app creation with low-code tools to quickly design, build, deploy, and scale applications	Transform into a data-driven organization using AI-powered analytics, process intelligence, Enterprise Performance Management (EPM) software, and data fabric	Speed up innovation with pre-built Infor Enterprise Resource Planning (ERP) add-ons that address specific challenges using advanced technologies

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
