

Accelerate end-user adoption of Infor ERP solutions with in-app education via Infor Adoption Accelerator (IAA)

Get the knowledge exactly when you need it

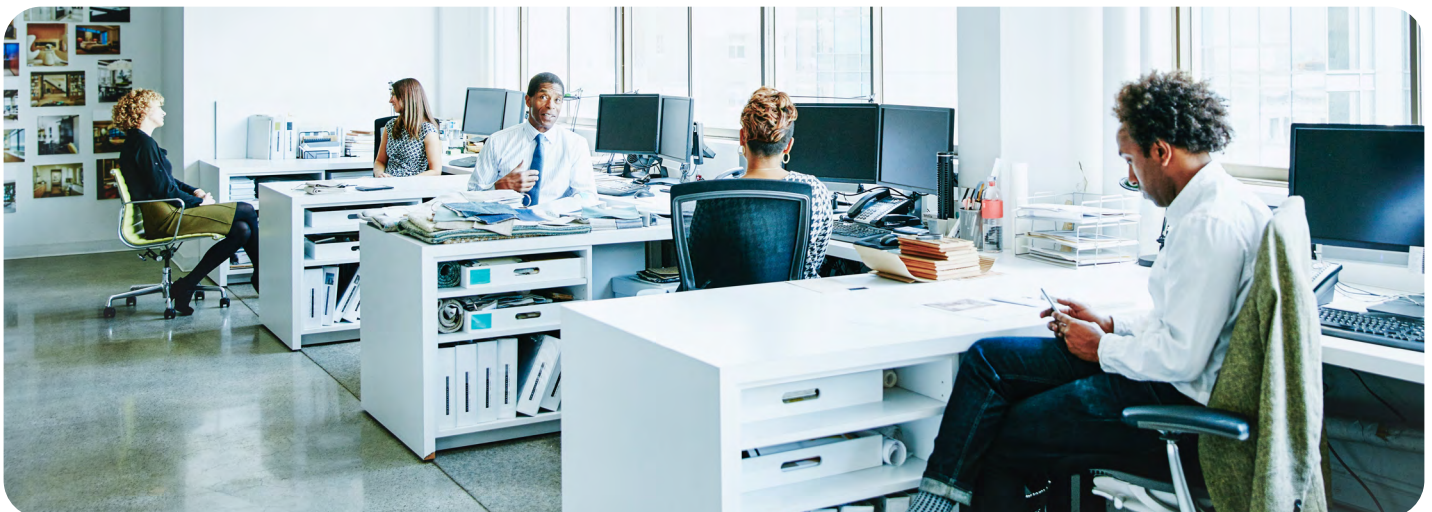

Infor™ Adoption Accelerator (IAA) is designed to empower end-users to accelerate their enablement journey on Infor enterprise resource planning (ERP) solutions and succeed from day one.

It operates seamlessly within Infor ERP solutions, helping drive end-user adoption at scale by providing real-time knowledge and contextual guidance.

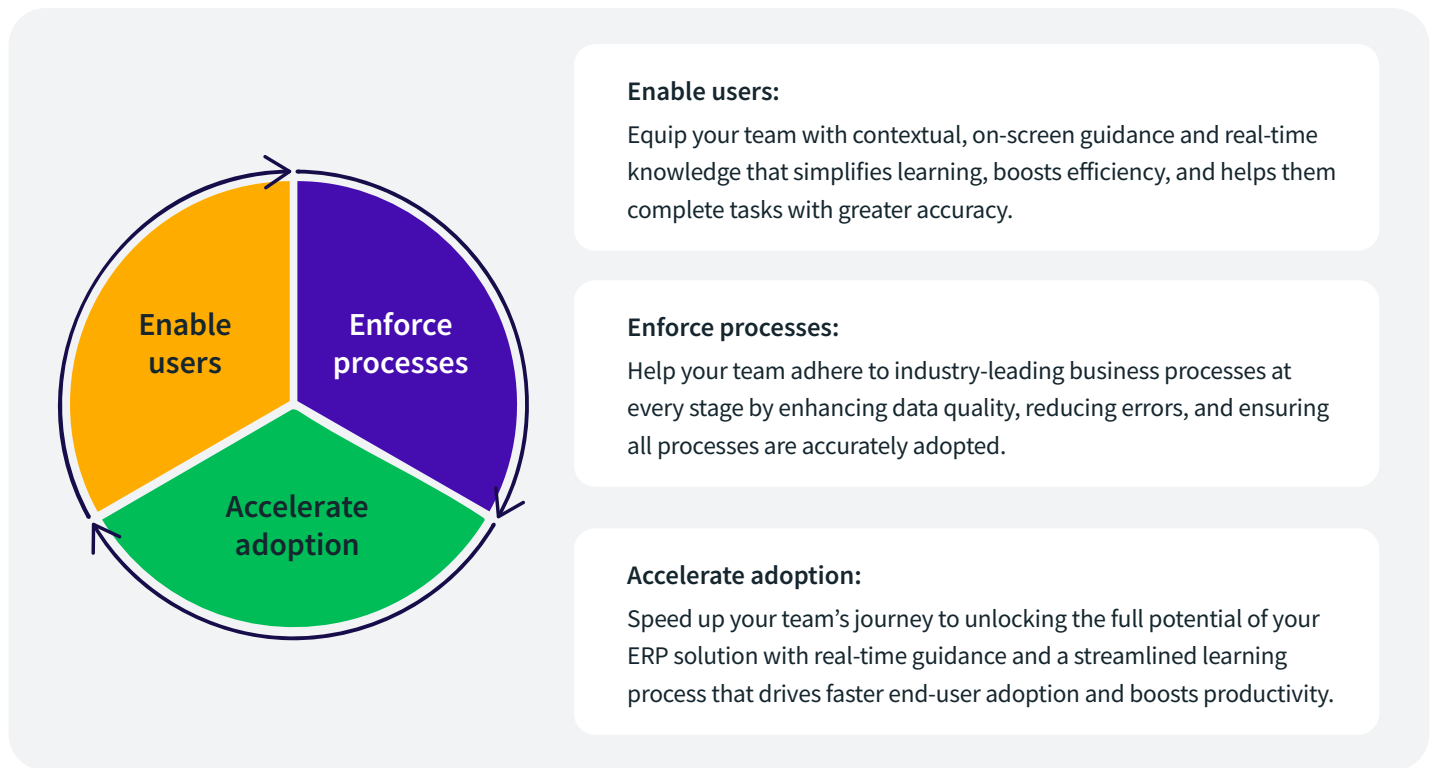

With Infor Adoption Accelerator, you can:

- Enhance real-time learning
- Speed up user enablement and readiness
- Drive efficiency and productivity

The Infor Adoption Accelerator (IAA) advantage

Unlock instant value with preconfigured features

**Real-time validations:**

Ensure that users receive immediate feedback on their actions, helping them correct mistakes instantly and preventing errors before they happen.

**Workflows:**

Streamline complex tasks with step-by-step workflows that eliminate guesswork, drive efficiency, and reduce the risk of mistakes.

**Tooltips:**

Deliver in-context tips and instructions on demand to support usability and enhance learning without interrupting workflows.

**Reminders/Announcements:**

Keep your team informed and engaged with automatic reminders and key announcements, ensuring no critical updates are overlooked.

Additional features for enhanced flexibility and control

Infor Adoption Accelerator's preconfigured features deliver immediate value, jumpstarting the user enablement journey with ease while offering a range of robust, customizable features that provide flexibility and control—enabling you to select, manage, and adapt the solution to your specific business needs.

Key features:

- Process compliance
- Data validations
- Auto-populated fields
- Cross-application links
- Custom validation rules
- Real-time task monitoring
- Dynamic notifications

Infor Adoption Accelerator (IAA) Developer Studio

Infor Adoption Accelerator Studio is a powerful developer platform that enables content authoring, management, and delivery. It allows you to create and manage tailored workflows, self-help resources, pop-ups, and more—giving your teams the flexibility to customize the existing content, platform features, and deliver a personalized user-enablement experience that meets your unique business needs.

About Infor

Infor is a global leader in business cloud software products for companies in industry-specific markets. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science, and integrates easily into existing systems. Over 67,000 organizations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.
