

# Unleash agility and optimize operations: Shaping the future of industrial manufacturing with cloud-based efficiency

Infor CloudSuite for Industrial Manufacturing is a comprehensive suite of industry-specific cloud-based ERP solutions designed to empower your business with unmatched agility and efficiency. We understand the unique challenges faced by industrial manufacturers, and our solutions provide the tools and insights you need to thrive in today's dynamic marketplace.

## Are you looking to:

**Streamline and automate processes to save time and money?**

**Enhance supply chain visibility and effectiveness with a unified system?**

**Gain 'real-time' cost transparency across complex projects or multi-site operations?**

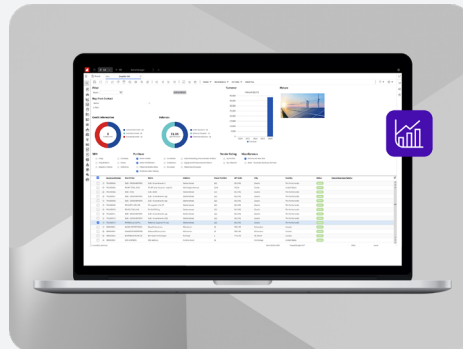

**Innovate production to quickly adapt to market demands?**

# Infor CloudSuite is your answer

## Here's how we can help:

- ✓ **Simplify operations:** Consolidate critical business applications into a single, cloud-based platform for seamless data flow and efficient operations
- ✓ **Boost productivity:** Leverage pre-configured workflows and industry best practices to optimize processes across the supply chain
- ✓ **Make smarter decisions with AI:** Gain real-time insights and improve accuracy with our advanced AI capabilities
- ✓ **Future-proof innovation:** Easily integrate new technologies like AI and machine learning to stay ahead
- ✓ **Reduce costs:** Benefit from automatic upgrades, ensuring you always have access to the latest features while minimizing the need for costly customizations

Customers have successfully achieved:

**8x**  
Reduction  
in required  
customizations

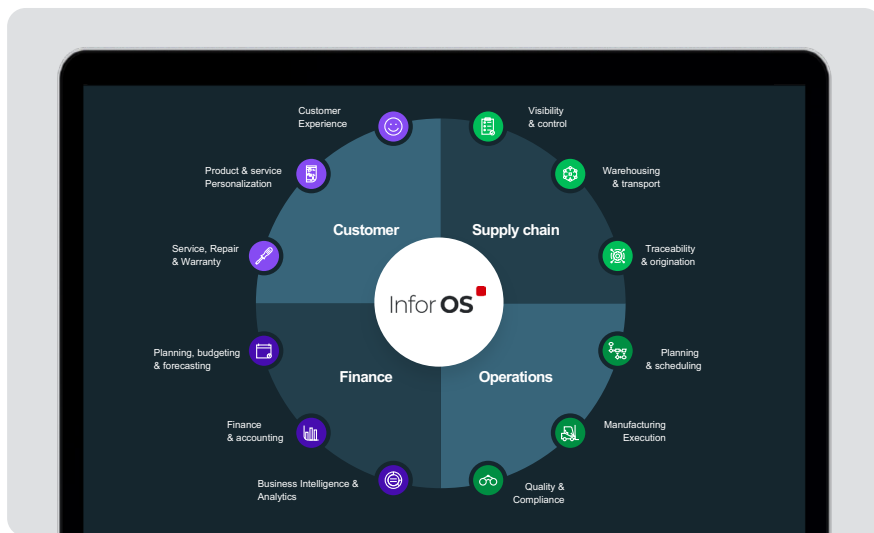

**200+**  
Processes redefined,  
improving value and  
user experience

**70+**  
ERP systems  
reduced to one

## Integrated suite of applications for industrial manufacturers

Infor's CloudSuite, underpinned by the Infor OS Platform, provides industrial manufacturers with a cloud solution that seamlessly connects people, machines, products, and the most complex of business processes. The integration transforms customer service, enhances operational efficiencies, and ensures future innovative business agility to help maximise revenue growth in dynamic market conditions.

## Ring Container improves visibility with the cloud

“We gained that system-wide visibility, so any one of our 19 global plants could jump into the system and say, hey that plant runs similar equipment, how are they achieving better results? This real-time data allows for us to have manufacturing flexibility to continually grow.”

**Rusty Johnson**

Director of Operational Excellence & Innovation

## Infor CloudSuite: Adapts as you grow to future-proof your business

**Stay updated automatically** with the latest software versions to streamline processes and enhance security

**Seamless integration across platforms** simplifies connecting cloud and on-premises applications, speeding up data flow for improved decision-making

**Optimize costs** by scaling cloud services to demand, minimizing capital expenditures and operational costs

**Empower decisions** with democratized analytics that drive efficiency and improve business outcomes with speed to market of new products

**Are you ready to innovate?**
